DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- 1. Claims 34 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Culhane, US #4,250,640.
- 2. Culhane discloses a framing system including wall strip 80 (Figure 13) having two arms 84 and 84', transparent envelope 10 having front and rear surfaces connected at a U-bend, the front surface having an upper edge adapted to slide between the first and second arms, and cover 90 attachable to the wall strip so as to overlie the wall strip entirely. The upper edge of the rear surface is spaced apart from the upper edge of the front surface.

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claim 38 is rejected under 35 U.S.C. 103(a) as being unpatentable over Culhane in view of Kump et al. US #6,026,603.
- Culhane does not teach the panels as being biased into contact with one
 another, however this is well known in the art. Kump et al. teach two such panels 20,
 that are biased into contact with one another. It would have been obvious to a

Application/Control Number: 10/685,165 Page 3

Art Unit: 3611

person having ordinary skill in the art to utilize the panels of Kump et al. with the display of Culhane so as to provide a secure means for holding the display in place.

- 6. Claims 39-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abramson et al. US #4,821,437 in view of Pascarelli, US 5,305,537.
- Abramson teaches wall strip 20 having front and back arms (forming clip 32) and slot 44 extending perpendicularly to the arms. Cover 44 includes a tab at the upper and lower edge for engaging the slot (Figure 1). The dimensions "match" that of the wall strip. Abramson does not teach an envelope having front and rear surface, however, this is well known in the art of displays. Pascarelli teaches an envelope including front and rear sides connected at the bottom and separable for insertion of a display (Figure 5). It would have been obvious to one of ordinary skill in the art to utilize such an envelope in the holder of Abramson et al. so as to provide a display holder wherein the display may be changed without having to change the whole envelope.

Allowable Subject Matter

8. Claim 37 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

9. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joanne Silbermann whose telephone number is 571-272-6653. The examiner can normally be reached on M-F 5:30 - 2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 571-272-6651. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
